

Winter Session

February 11th – 12th, 2012

The purpose of the winter session is a) to provide a 'checking' point to reflect on work undertaken at the first summer school and in the 6 months subsequent to that; b) to provide a forum in which to explore and help confirm the plans for the progress expected over the next stage of ReSET; c) to raise any questions that have emerged around the work packages and future plans.

A necessary, but by no means sufficient, part of the schedule is therefore to provide a forum for each group, or representative members of, to present their 'work in progress' both to get feedback on what has been achieved and proposed as well as to get impetus to take work forward into the period leading up to the second summer session.
