

Major Features of SAGE Journals

[Search](#)

Use Quick Search (upper right) or [Advanced Search](#) features to find articles in **SAGE Journals**, with fielded Boolean search to construct complex searches.

Browse

SAGE Journals offers various options to assist with your article searches or to locate a journal of interest:

- [Browse Journals by Title](#) provides alphabetical lists of all SAGE journals by title.
- [Browse Journals by Discipline](#) provides lists of all SAGE journals organized by four primary topics and their 50+ corresponding disciplines.

Both features allow you to limit your browse by [My Favorite Journals](#) or [SAGE Journals Available to Me](#).

Article Full Text All SAGE journal articles are provided in full text PDFs, which include citation information and other vital article details. Many SAGE journals are also provided in [full text HTML](#), which includes all tables and figures with various viewing and [download options](#), and other interactive features.

[Reference Linking](#)

The references for all SAGE journal articles are available in both HTML and PDF views, including links to cited articles or resources in other online journals and sources, as available. References on **SJ** also provide inter-journal linking, library holding links, and other features for online researchers.

[My Tools](#)

My Tools allows for customization of **SAGE Journals**. Access to My Tools requires a **SAGE Journals** [registration](#).

[Email Alerts](#)

Sign up to receive Email Alerts for new issues, Online First articles, custom search results, citations of selected articles, or special announcements.

[My Favorite Journals](#)

Designate journals of interest as My Favorite Journals to allow for customized browsing and searching within **SAGE Journals**.

[Saved Citations/Saved Searches](#)

Collect and manage article citations and searches of interest in a single location for future use.

[My Marked Citations](#)

Select article citations as My Marked Citations in order to email, print, add to your Saved Citations/Saved Searches list, or download to a citation manager.

[Search History](#)

Your 10 most recent searches are displayed with options to edit, save the search criteria as an alert, rerun, or add to your Saved Citations/Saved Searches list.
